

The General Register Office for Scotland and The National Archives of Scotland have been working with Edinburgh Primary Schools on the Eco Schools initiative as part of their policy to improve the environment, save energy and recycle. To get the message over to staff, the departments asked local pupils to design posters. The winning designs will be used in all our buildings to encourage staff to save energy, save water, walk to work and recycle.

The judging panel, chaired by the Deputy Registrar General, found it very difficult to select the winners as all the poster designs were to a very high standard. The judges were also impressed with the knowledge all the children displayed in their posters – all of which stressed the importance of saving the environment.

The five winning posters were:

Carricknowe Primary School

Craigroyston Primary School

Fox Covert RC Primary School

Lorne Primary School

Prospect Bank Special School
